POWERED TROLLEYS

Powakaddy TOUCH

Guide: £399

With an intuitive and responsive handle featuring TOUCH 'n' Go Technology, the revolutionary and lightweight Powakaddy TOUCH automatically adjusts its pace to reflect yours. Ease of stowage comes courtesy of a single action folding front wheel and lower bag stay, and the unit stands upright when folded. The ambidextrous universal controlling handle can be adjusted for height, while a powerful 200W motor provides more than enough oomph to navigate the oversize aluminium frame and ensures this efficient electric trolley can tackle even the hilliest of courses. A versatile grip secures and holds your golf bag firmly in position, while the key-lock front wheel housing provides a locking mechanism for all Powakaddy bags from 2006 onwards. Available in white or bronze.

DEALS ON WHEELS

Powakaddy SPORT

Guide: £429 (lead acid battery)
£649 (lithium)
£729 (lithium brake)

From the original pioneers in powered trolleys the very latest model from Powakaddy packs years of know-how and expertise into this sleek and lightweight package. The compact 3-way folding aluminium frame collapses to fit in even the smallest boot space and is easily assembled in just a matter of seconds, while universal bag stays and soft-grip straps fix your luggage in place. The 200W motor is controlled via a soft-touch grip handle housing the high-contrast LCD screen, with features including a speed setting display, battery level indicator, digital clock and a digital distance function that enables the user to send the trolley 15, 30 or 45 yards ahead on automatic. Lightweight sport wheels add the finishing touch to a smart package. Lithium battery model available in graphite (pictured) or white. Lead acid battery available in black or white.
