## THE EQUIPMENT

# POWAKADDY GETS SPORTY

NEW MODEL BUILDS ON SUCCESS OF FREEWAY II.

Powakaddy has unveiled its latest trolley, the Sport. It retains all the best features of the Freeway II with some subtle changes such as a new distance control function that gives a larger number of speed settings. This lightweight aluminium trolley is also incredibly strong, meaning it is very stable and easy to manoeuvre. The Sport – which is powered by a 200-

watt motor – folds in a quick, three-way movement and fits into the smallest of car boots. A new ergonomic soft grip handle, built-in responsive speed control roller with a choice of nine speeds and a soft-touch standby switch make it very user friendly. Prices: £429 (lead acid battery), £649 (lithium battery) or £729 (lithium brake). [www.powakaddy.co.uk](http://www.powakaddy.co.uk)

High-contrast LCD screen features: speed setting display, battery indicator, digital clock and a separate digital distance function to send the trolley 15, 30 or 45 yards automatically.

Universal bag stay and soft grip pads accommodates all bag types and reduces twisting.

New responsive speed control roller offers easy-to-use ambidextrous speed control for ease of use and ultimate comfort.

New ergonomic soft grip handle.

The top-spec version has an electronic braking system. Simply press the buttons on the control pad to give three levels of traction for greater downhill control.

Compact three-way folding aluminium frame. Powerful and quiet 200-watt motor.
